

FEATURES:

- **Construction:**

Plastic junction box made up of cover and base. Gray cover and base made of UL94-HB ABS plastic. Transparent cover made of PC plastic. Polished surface. Gray color to RAL-7035.

- Self-extinguishing, double insulation
 - Sealing gasket in all models
 - Locking screw in ABS plastic
 - Direct fixing and also by means of expansion screws
 - Standard mounting plate in ABS plastic, fixing by galvanized screws
- Easy to installed circuit breakers and DIN rails

- **Durability:**

Both the base and lid are injection moulded as a single unit by automated machinery, offering high impact resistance.

The sealing gasket is machine-moulded using polyurethane polymer foam soft rubber as the raw material.

KEY ATTRIBUTES:

Product Name	Plastic junction box screw type
Model	BJ-AG/PT W/PL
Supply Include	BJ-AG: ABS gray cover and base BJ-PT: PC transparent cover and ABS gray base W/PL: With ABS mounting plate Accessories include: 4 pcs nylon screws for locking, 2-4 pcs galvanized screws for mounting plate
Color	Gray-RAL7035
Height	110 — 500 mm
Width	80 — 400 mm
Depth	45 — 200 mm
Suitable	Outdoors and indoors

PRODUCT CAPABILITY:

Waterproof	IP68
Impact Resistance	IK08
Temp Range	ABS: -20°C~+70°C, PC:-40°C~+110°C
Certification	CE, TUV, IEC
