

FEATURES:

● Construction:

Plastic distribution box made up of window cover, flame retardant frame and base. The material is UL94-VO ABS/PC plastic. Polished surface. Gray color to RAL-7035.

- Flush and surface mounting, with and without door
- Sealing gasket in all models
- Locking screws
- Direct fixing and also by means of expansion screws
- Supplied with built-in Din rails
- Supplied with copper bus bar

● Durability:

Both the base and lid are injection moulded as a single unit by automated machinery, offering high impact resistance.

The sealing gasket is machine-moulded using polyurethane polymer foam soft rubber as the raw material.

Copper bus bar can safe to wire neutral and ground. Din rails can easy to install circuit breaker and other devices.

KEY ATTRIBUTES:

Product Name	Plastic distribution box
Model	BJE
Supply Include	ABS/PC Flame retardant frame and base Window cover and sealing gaskets Galvanized screws, ground row and DIN rail
Color	Gray-RAL7035
Type	4, 6, 9, 12, 18, 24, 36 Way 4 Way cover opens vertically While the others 6, 9, 12, 18, 24, 36 Way open horizontally
Window Cover	Surface polished to achieve a frosted effect. The cover can be held at a specific angle.

PRODUCT CAPABILITY:

Waterproof	IP66
Impact Resistance	IK08
Flame Retardancy	UL94_V0
Temp Range	-45°C~+135°C
Certification	CE, TUV, IEC
